

Notes on editing the programme lists

- Choose the card "Programme lists"!
- Click on the required list and open this with "Edit"!
- Two windows appear "Programme pool" and "Favourite lists"!
- If only the programme pool is opened, then click on the the button "Favourite list"!
- In both windows ("Programme pool" and "Favourite lists") one can blend in all available commands using the right mouse-key!

Moving a single programme into the pool or in the favourite list!

One can carry this out as usual when working with a PC:

- First click on the programme using the left mouse-key (blue background),
- then remove this using CTRL-X,
- then click on the new position,
- then enter using CTRL-V!

Moving a programme block into the pool or in the favourite list!

- Click on the first (or last) programme in the programme block:
- then holding the SHIFT key depressed navigate to the end of the programme block (or beginning) using the Cursor-key (the block is with a blue background),
- then remove using CTRL-X,
- then click on the new position,
- then insert using CTRL-V.

Copying a single programm from the pool into a list!

- First choose a position in the favourite list = simple mouse click on the position,
- then double mouse-click on the wanted programme in the pool.

Copying a programme block from the pool into a list!

- First choose the position in the favourite list = simple mouse-click on the position,
- then click on the first (or last) programme in the programme block,
- then holding the SHIFT key down, navigate to the end (or the beginning) of the programme block (the block is marked with a blue background),
- then click on the right mouse-key, a list of the available control commands will appear,
- then click on the command (using the left mouse key) "Insert cell in the bank".
